

Equal Opportunities Workshop: PhD, and next? Career options, skills and orientation for scientists

So, you finally have a science degree - or will in the future. What to do with it?

Are all doors open to you or is there still a lot of work to be done?

In this workshop, you will learn about

- Yourself: Your interests, values and skills
- Career options: There are many more options than you think and you will be able to change between them
- Shall I do a postdoc or not?
- Skill development: Which (hidden) skills do you already have, which can you develop during your time in academia
- Skills match: What do employers want from you? How to sell yourself?

Day 1	Day 2	Day 3	Day 4	Weeks 2-3
Live webinar - kick off - strategy and introspection	Live webinar - career options- strategy	Live webinar - career options- specifics	Live webinar - skills match	Individual written or oral feedback from the instructor
Individual and group course work (online and offline)	Individual and group course work (online and offline)	Individual and group course work (online and offline)	Individual and group course work (online and offline)	

Coach

Dr. Karin Bodewits comes from the Netherlands where she studied Biology. After spending some time at Puleva Biotech in Spain and Unilever in China, she completed a PhD in Biochemistry at the University of Edinburgh. In 2012, she founded the successful company NaturalScience.Careers, a seminar and talk provider for natural- and life scientists. In this function, she became book author, short story writer, speaker and seminar leader and published a wide range of career and soft skills related articles in magazines like Chemistry World and Naturejobs.
